CR230

Stair climbers by AAT

CR230

The power pack among the stair climbers

For people with a walking disability stairs are a great obstacle that must be conquered. The mobile stair climbing aid CR230 helps you to be mobile, not only at home, but also en route.

The CR230 is a stairclimber with a foldable and integrated seat. For transportation the seat can easily fold and due to the compact measurements thereby also space-saving stored.

ComfortStep is a standard component of the CR230 stair climber. It works in the single step mode as well as in the regular climbing mode.

The maximum weight of a person which could lift with the CR230 amounts to 230 kg.

Advantages that convince

- **Maximum weight of the person is 230 kg**
- **Foldable, thereby space-saving storage**
- **ComfortStep - for a comfortable driving experience**

Illustration shows accessory.

ComfortStep

The combination of pleasant driving characteristics and a comfortable climbing experience

The ComfortStep is also used in AAT's latest development, the C230 stair climber.

It convinces by quietly and softly touching the step which makes the movement more pleasant.

The result is that the climbing process is more comfortable for the patient due to low vibrations.

ComfortStep is a standard component of each C230 stair climber. It works in the single step mode as well as in the regular climbing mode.

The adaptation to a variety of step heights is a further function provided by ComfortStep. This makes an easy and individual adaptation to your particular stairs possible.

Advantages that convince

- **Pleasant and comfortable climbing process**
- **Individually adjustable to various steps' heights**
- **Available for the single step mode as well as the regular climbing mode**
